

(a) Each application must specify an address in the United States to be used by the Commission in serving documents or directing correspondence to the licensee.

(b) An original of each application must be filed.

(c) One application for two or more new maritime utility stations may be submitted when the applicant and proposed area of operation for each station is the same.

(d) One application for transfer of control may be submitted for two or more stations subject to this part when the individual stations are clearly identified and the following elements are the same for all existing or requested station authorizations involved:

- (1) Applicant;
- (2) Specific details of basic request.

Name of licensee (without change in ownership, control or corporate structure).	Written notice to the Commission.
Transfer of control of a corporation.	Comply with § 1.924 of this chapter.
Assignment of a radio station license.	Comply with § 1.924 of this chapter.
Name of the vessel	Written notice to the Commission.

Type of change	Required action
Addition of transmitting equipment which operates on a frequency or frequency band not authorized on present license.	Application for modification of license.
Addition or replacement of transmitting equipment on a frequency or frequency band authorized on present license.	None (provided the equipment is properly type accepted and the emission characteristics remain the same).
Increased number of mobiles (AMTS).	Written notice to the Commission.

(b) Written notices must be sent to the Federal Communications Commission, Gettysburg, PA 17325.

[51 FR 31213, Sept. 2, 1986, as amended at 56 FR 3783, Jan. 31, 1991]

§ 80.31 Cancellation of license.

When a station subject to this part which is not a communication common carrier permanently discontinues operation, the licensee must return the station license to the Commission's office at P.O. Box 1040, Gettysburg, PA 17325, for cancellation. Communication common carrier stations subject to this part must comply with the discontinuance of service provisions of part 63 of this chapter.

§ 80.33 Developmental license.

This section contains rules about the licensing of developmental operations at stations subject to this part.

(a) *Supplemental eligibility.* An authorization for developmental operation will be issued only to persons eligible to operate such stations on a regular basis.

(b) *Showing required.* Each application for a developmental license must be accompanied by a letter showing that:

(1) The applicant has an organized plan of development leading to an objective;

(2) A point has been reached in the program where actual transmission by radio is essential to progress;

(3) The program will contribute to the use of the radio services subject to this part;

(4) The program will be conducted by qualified personnel;

(5) The applicant is legally qualified and possesses technical facilities for conduct of the program as proposed; and

(6) The public interest, convenience and necessity will be served by the proposed operation.

(c) *Signature and statement of understanding.* The showing must be signed by the applicant and state that the applicant agrees that any developmental license issued will be accepted with the express understanding that it is subject to change in any of its terms or to cancellation in its entirety at any time, upon reasonable notice but without a hearing, if, in the opinion of the Commission, circumstances should so require.

(d) *Assignable frequencies.* Applicants for a developmental license may be authorized to use a frequency or frequencies available for the service and class of station proposed. The number of frequencies assignable to a particular station will depend upon the specific requirements of the developmental program and the number of frequencies available for use in the area where the station is to be operated.

(e) *Developmental program.* (1) The developmental program as described by the applicant in the application for authorization must be substantially followed unless the Commission otherwise directs.

(2) Where some phases of the developmental program are not covered by the general rules of the Commission and the rules in this part, the Commission may specify supplemental or additional requirements or conditions.

(3) The Commission may, from time to time, require a station engaged in developmental work to conduct special tests which are reasonable to the authorized developmental program.

(f) *Use of developmental stations.* (1) Stations authorized to conduct developmental operations must conform to all applicable technical and operating requirements contained in this part, unless a waiver is specifically provided in the station authorization.

(2) Communication with any station of a country other than the United States is prohibited unless specifically provided in the station authorization.

(3) Developmental operations must not cause harmful interference to the operation of stations regularly authorized to use the frequency or frequencies.

(g) *Report of operation required.* A report on the results of the developmental program must be filed within 60 days of the expiration of the license. A report must accompany a request for renewal of the license. Matters which the applicant does not wish to disclose publicly may be so labeled; they will be used solely for the Commission's information. However, public disclosure is governed by §0.467 of this chapter. The report must include the following:

- (1) Results of operation to date.
- (2) Analysis of the results obtained.
- (3) Copies of any published reports.
- (4) Need for continuation of the program.
- (5) Number of hours of operation on each authorized frequency during the term of the license to the date of the report.

§ 80.37 One authorization for a plurality of stations.

Marine utility stations. One station license may be issued to authorize a designated maximum number of marine utility stations operating at temporary unspecified locations, normally in multiples of ten stations when:

- (a) The licensee of each station is the same; and
- (b) The authorized area of operation of each station is the same.

§ 80.39 Authorized station location.

This section describes the circumstances under which a coast station location is classified as permanent or temporary unspecified.

(a) *Permanent.* Whenever a station is to transmit from a single location, the station location is *permanent* and the location must be shown on the application.

(b) *Temporary unspecified.* Whenever a station is to transmit from unspecified locations within a prescribed geographical area, the station location is *temporary unspecified* and the proposed geographical operating area must be shown on the application.

§ 80.41 Control points and dispatch points.

This section applies to coast or fixed stations at permanent locations.
